EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Duan Wu on 09/03/04.
3. The application has been amended as follows:
Cancel claims 8-22.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

As to independent claim 1, "depositing a reactive species on a portion of the organic semiconductor layer and reacting the reactive species with the portion of the organic layer to form a dielectric layer", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.
5. Prior art of record

Suh et al. teaches an insulating layer or dielectric layer is deposited without using any kind of reactive process to form the dielectric layer.

Aronowitz et al. does describe a dielectric layer using a reactive species but this reaction is with an inorganic layer rather than with an organic layer specified in the independent claim 1

Dimitrakopoulos et al. teaches an organic layer or Pentacene layer but it is deposited on top of an insulating layer or dielectric layer without a reaction.

Art Unit: 2125

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
